Chop & Chip

Tony Sowers, Shaker Farms Country Club's superintendent, continues to chop and chip the many branches, limbs, trees that came down during the early winter blizzard that swept the area. Besides chopping & chipping Tony had two more loads of stone delivered which were needed to finish the 4th renovation project. The 7th tee, which was in the middle of a makeover before the chopping & chipping began, will be dormant seeded. The first application of snow mold was applied. The next application will be applied before the snow flies again. The waterlines are all blown out for the winter.

Small Miracles

Next on the list is the winter maintenance program. Tony has William Hoiser, our mechanic, all set to perform small miracles to our equipment to ensure everything runs smoothly next year. Dick Gavoli, who has been working miracles on our carts for a few years now, will start putting the carts to bed for the winter. But don't fear, our members can continue to play during these unusually mild days which is another small miracle in itself.

Thank You 2011 Committee

Behind the scenes the tournament committee plans, organizes, negotiates, and delegates all of the many tasks involved in running our members' tournaments. Thanks so much Dave Sheedy, Gary Pollard, Clyde St. Amand for all of your time & effort for making the 2011 year a success.
